Longarm Quilting Services · Commissioned Quilts

I use an ABM Innova 22" Longarm machine to machine quilt edge-to-edge designs and custom design. Currently I do not use pantographs or computer driven designs.

I charge by the square inch for all quilting services. In order to find the quilting charge, follow this formula:

$$\text{Length} \times \text{Width} \times \text{Rate} = \text{Quilting charge}$$

Example: 80" x 90" = 7200 square inches x .035 = \$252.00

Shipping

I use USPS Priority mail to ship your quilts back to you unless you specify another service. I will weigh the package and determine the cost of shipping and provide you with the total bill including the shipping charge. Once I receive payment, I will ship the quilt to you. Your quilt will be wrapped in tissue and then put in a plastic bag to protect it from the elements.

If you are shipping your quilt to me:

Ellen Phillips
c/o Facility Programming
